“Light Up” for Better Living

Eyesight is priceless
Light is cheap

Good lighting means using approved-type fixtures, floor and table lamps and equipping them with right-size bulbs. With both bulbs and electricity costing so little, good lighting, for protecting eyesight, is something every family can afford to enjoy.

telephone call.

Fire Alarm Signals

2 Blows calls out department for
slight fire in Precincts 2 and 4.

2 Blows after an alarm signifies fire
under control.

5 Blows call department for slight
fire in Precincts 1, 2, 3.

3 Blows with 5 seconds intervals at
7:30 A.M. means no school for grade
school.

3 Blows at 12:15 P.M. with 5 sec-
ond intervals between blows means
no afternoon session at any school.

9-9—With 5 second intervals Boy
Scout call.

Note—Where possible, a box alarm
is preferable, as it notifies firemen of
the location of the fire. Persons pull-
ing in an alarm should always wait at
box until the arrival of firemen so as
to direct them to its location.

In giving an alarm by telephone be
sure to give exact location of fire,
street and number, whether serious or
slight, and do not pull in a box alarm
after engine house has been called,
as this is sure to cause confusion.

Drivers must in all cases after an
alarm by telephone press box nearest
to fire when there is the least possible
danger.

Officers will see that a roll call is
held after each alarm and report same
within 4 days to the chief of the fire
department.
